7 mm Slim

7mm Ultra slim design

Slim S55 is the new Slim series 7mm 2.5" SSD for the new generation of ultra slim notebook. S55 is powered by the 6Gbps SATA III interface to further expand computing experiences and mobility.

Features

- 7mm slim design suitable for Ultrabooks and Ultra-slim notebooks
- SATA III 6Gbps backwards compatible with SATA II 3Gbps
- Super-high transfer rate: Read speed: 520 MB/s max; Write speed: 460 MB/s max
- Smartest Choice for System Upgrade
- Supports TRIM command and Garbage Collection technology
- NCQ and RAID ready
- Implemented with ECC technology to guarantee data transmission reliability
- Built-in with SMART monitoring system
- Low power consumption
- Shockproof & Anti-Vibration
- Noiseless operation, no latency delay and no seek error
- 3 year warranty

*Transfer rates may vary, depending on system platform.

The Smartest Choice for System Upgrade

Dedicated to providing high quality products for the budget minded consumers, Slim S55 is positioned as one of the most cost effective models. Slim S55 feature the latest SATA III 6Gb/s interface with an impressive read/write speed. Offering incredible performance at a surprisingly affordable price, it is no wonder that S55 is the smartest choices for users who are looking to upgrade their system to a SSD.

More reliable and durable

The new Slim series is more reliable and durable than a hard drive. Weighing only 63 gram, SP Slim series SSD is one of the lightest of its kind yet it is shock and vibration proof as it contains no moving parts.

Specifications

- Capacity: 60GB/120GB/240GB
- Dimensions: 100mm x 69.85mm x 7mm
- Weight: 74g
- Vibration Resistance Test: 20G
- Shock Resistance Test: 1500G Max
- Color: Black
